Early Childhood and Sustainable Citizenship Routes in the Digital Era

EACH

Free materials for kindergarten teachers, parents and educators: methods that nurture digital key competences in preschools, built around sustainability, the climate crisis and thinking together with children aged 3 to 6. All of it is online, in English, German, Italian, Polish, Portuguese and Slovenian.

What you will find at each.eduskills.plus

Guidelines

From theory to practice: how to run collaborative knowledge-building in an early-years classroom. Written for teachers, printable in full.

Activities

Fifteen hands-on activities with prompts for discussion that encourage exploration, creativity and thinking together.

Self-assessment tool

Four short reflections on your own practice, to return to across the school year. A ground for dialogue among educators, not a score.

In practice

Narrative reports from kindergartens in Italy, Poland and Portugal: what worked, what got in the way, and what the children said.

Resources

An interactive database of links to useful resources, filtered by theme and type.

THREE THREADS RUN THROUGH ALL THE MATERIALS

- **Dialogical thinking**
  Children reason together in a community of inquiry.
- **Environmental awareness**
  Developing an understanding of sustainability by carefully observing and exploring the world around us.
- **Digital transformation**
  Technology used to foster connection with others and open questions.
